### **Designed for your convenience**

- Smart Picture and Smart Sound to personalize your viewing
- The Teletext provides a rich source of information

### **For advanced performance**

- Component Video Input for top quality playback

**PHILIPS**  
sense and simplicity

# Highlights

## Real Flat picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

## Crystal Clear

Combining picture enhancements like Contrast plus and color improvement, Crystal Clear improves picture depth.

## Active Control

Active Control ensure that noise and sharpness improvements are continuously made at a rate of 60 times per second. By

continually adjusting picture setting over 3,000 times per minute, Active Control Plus ensures that the viewing experience is optimized.

## AV Stereo

By connecting the TV to an AV source with stereo sound, the TV converts the mono sound to spatial stereo sound for a lifelike experience.

## Smart Picture and Smart Sound

Philips preset modes for Smart Picture and Smart Sound provide you with direct access via a single key on the remote control. You can

select optimized picture and sound settings for the various picture and sound modes.

## Teletext

The Teletext is a communication system transmitted by most broadcasters in Europe, which contains a rich variety of information. This information can only be viewed by a set equipped with a Teletext decoder.

## Component Video Input (YPbPr)

Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.

# Specifications

## Picture/Display
